Long Table Pagination Test

This document is a regression test: the table below must continue onto subsequent pages (no clipping at the bottom of page 1).

KPI Table (Should Span Multiple Pages)

KPI	Value	YoY	QoQ	Management Explanation
KPI 01	Value 01	YoY 01	QoQ 01	Long text to force wrapping. This cell is intentionally verbose so the row height grows and the table must paginate correctly across pages.
KPI 02	Value 02	YoY 02	QoQ 02	Long text to force wrapping. This cell is intentionally verbose so the row height grows and the table must paginate correctly across pages.
KPI 03	Value 03	YoY 03	QoQ 03	Long text to force wrapping. This cell is intentionally verbose so the row height grows and the table must paginate correctly across pages.
KPI 04	Value 04	YoY 04	QoQ 04	Long text to force wrapping. This cell is intentionally verbose so the row height grows and the table must paginate correctly across pages.

KPI	Value	YoY	QoQ	Management Explanation
KPI 05	Value 05	YoY 05	QoQ 05	Long text to force wrapping. This cell is intentionally verbose so the row height grows and the table must paginate correctly across pages.
KPI 06	Value 06	YoY 06	QoQ 06	Long text to force wrapping. This cell is intentionally verbose so the row height grows and the table must paginate correctly across pages.
KPI 07	Value 07	YoY 07	QoQ 07	Long text to force wrapping. This cell is intentionally verbose so the row height grows and the table must paginate correctly across pages.
KPI 08	Value 08	YoY 08	QoQ 08	Long text to force wrapping. This cell is intentionally verbose so the row height grows and the table must paginate correctly across pages.
KPI 09	Value 09	YoY 09	QoQ 09	Long text to force wrapping. This cell is intentionally verbose so the row height grows and the table must paginate correctly across pages.
KPI 10	Value 10	YoY 10	QoQ 10	Long text to force wrapping. This cell is intentionally verbose so the row height grows and the table must paginate correctly across pages.

KPI	Value	YoY	QoQ	Management Explanation
KPI 11	Value 11	YoY 11	QoQ 11	Long text to force wrapping. This cell is intentionally verbose so the row height grows and the table must paginate correctly across pages.
KPI 12	Value 12	YoY 12	QoQ 12	Long text to force wrapping. This cell is intentionally verbose so the row height grows and the table must paginate correctly across pages.
KPI 13	Value 13	YoY 13	QoQ 13	Long text to force wrapping. This cell is intentionally verbose so the row height grows and the table must paginate correctly across pages.
KPI 14	Value 14	YoY 14	QoQ 14	Long text to force wrapping. This cell is intentionally verbose so the row height grows and the table must paginate correctly across pages.
KPI 15	Value 15	YoY 15	QoQ 15	Long text to force wrapping. This cell is intentionally verbose so the row height grows and the table must paginate correctly across pages.
KPI 16	Value 16	YoY 16	QoQ 16	Long text to force wrapping. This cell is intentionally verbose so the row height grows and the table must paginate correctly across pages.

KPI	Value	YoY	QoQ	Management Explanation
KPI 17	Value 17	YoY 17	QoQ 17	Long text to force wrapping. This cell is intentionally verbose so the row height grows and the table must paginate correctly across pages.
KPI 18	Value 18	YoY 18	QoQ 18	Long text to force wrapping. This cell is intentionally verbose so the row height grows and the table must paginate correctly across pages.
KPI 19	Value 19	YoY 19	QoQ 19	Long text to force wrapping. This cell is intentionally verbose so the row height grows and the table must paginate correctly across pages.
KPI 20	Value 20	YoY 20	QoQ 20	Long text to force wrapping. This cell is intentionally verbose so the row height grows and the table must paginate correctly across pages.
KPI 21	Value 21	YoY 21	QoQ 21	Long text to force wrapping. This cell is intentionally verbose so the row height grows and the table must paginate correctly across pages.
KPI 22	Value 22	YoY 22	QoQ 22	Long text to force wrapping. This cell is intentionally verbose so the row height grows and the table must paginate correctly across pages.

KPI	Value	YoY	QoQ	Management Explanation
KPI 23	Value 23	YoY 23	QoQ 23	Long text to force wrapping. This cell is intentionally verbose so the row height grows and the table must paginate correctly across pages.
KPI 24	Value 24	YoY 24	QoQ 24	Long text to force wrapping. This cell is intentionally verbose so the row height grows and the table must paginate correctly across pages.
KPI 25	Value 25	YoY 25	QoQ 25	Long text to force wrapping. This cell is intentionally verbose so the row height grows and the table must paginate correctly across pages.
KPI 26	Value 26	YoY 26	QoQ 26	Long text to force wrapping. This cell is intentionally verbose so the row height grows and the table must paginate correctly across pages.
KPI 27	Value 27	YoY 27	QoQ 27	Long text to force wrapping. This cell is intentionally verbose so the row height grows and the table must paginate correctly across pages.
KPI 28	Value 28	YoY 28	QoQ 28	Long text to force wrapping. This cell is intentionally verbose so the row height grows and the table must paginate correctly across pages.

KPI	Value	YoY	QoQ	Management Explanation
KPI 29	Value 29	YoY 29	QoQ 29	Long text to force wrapping. This cell is intentionally verbose so the row height grows and the table must paginate correctly across pages.
KPI 30	Value 30	YoY 30	QoQ 30	Long text to force wrapping. This cell is intentionally verbose so the row height grows and the table must paginate correctly across pages.
KPI 31	Value 31	YoY 31	QoQ 31	Long text to force wrapping. This cell is intentionally verbose so the row height grows and the table must paginate correctly across pages.
KPI 32	Value 32	YoY 32	QoQ 32	Long text to force wrapping. This cell is intentionally verbose so the row height grows and the table must paginate correctly across pages.
KPI 33	Value 33	YoY 33	QoQ 33	Long text to force wrapping. This cell is intentionally verbose so the row height grows and the table must paginate correctly across pages.
KPI 34	Value 34	YoY 34	QoQ 34	Long text to force wrapping. This cell is intentionally verbose so the row height grows and the table must paginate correctly across pages.
